SEVENTH DAY.

(Continued.)

(Thursday, July 23, 1931.)

The House met at 9 o'clock a. m., and was called to order by Speaker Minor.

IN COMMITTEE OF THE WHOLE HOUSE.

(Mr. Minor in the chair.)

The Committee of the Whole House met at 9 o'clock a. m. and was called to order by Speaker Minor, Chairman of the Committee.

IN THE HOUSE.

(Mr. Minor in the chair.)

At 9:05 o'clock a. m., Mr. Minor, Chairman of the Committee of the Whole House, reported to the House that the Committee desired to rise, report progress and ask leave of the House to sit again at 9:15 o'clock a. m. today.

MESSAGE FROM THE GOVERNOR.

Mr. Pat Dougherty, Secretary to the Governor, appeared at the bar of the duced today, were laid before the House, and being duly announced, pre- House, read severally first time, and

sented the following message from the Governor, which was read to the House, as follows:

> Executive Office, July 22, 1931.

To the Senate and House of Representatives, Forty-second Legislature:

I beg to submit herewith what I deem a real emergency, and I beg of you to give it your prompt and earnest consideration.

The Highway Departments of Texas and Oklahoma have recently completed a free bridge across the Red River between Denison, Texas, and Durant, Oklahoma.

Before the beginning of the construction of this free bridge by the respective States it became necessary, on account of certain litigation, brought by the Red River Bridge Company, the owners of the toll bridge, for the Texas Highway Commission to make certain contracts with the bridge owners, whereby this litigation would be dismissed.

About the time of the completion of this free bridge by the respective States there arose a difference of opinion between the Texas Highway Commission and the bridge company as to the meaning or construction of the contract, which resulted in the bridge company filing a suit in the United States District Court at Houston, Texas, and obtaining an injunction against the Highway Commission of Texas and their employes, enjoining them from opening the free bridge on the Texas side and also commanding them to keep it closed until a settlement could be obtained upon said contract.

This injunction is still in force and it appears that this litigation will be long drawn out. Therefore, I feel that it would be to the best interest of the State of Texas that the Legislature pass a bill permitting the bridge company to sue the State of Texas. I am reliably informed that if this should be done the injunction will immediately be dismissed and the bridge be immediately opened for public use.

> Respectfully submitted, R. S. STERLING, Governor.

Whereas, This condition has been brought about by an abnormal excess of production over consumption utterly beyond the control of any private

agency; and

Whereas, The State of Texas, producing approximately a third of the American crop and at a cost considerably lower than the average of other States, should properly take the lead in any effort to remedy this deplorable

condition; therefore, be it
Resolved by the House of Representatives of the Forty-second Legislature, the Senate concurring, That the Governor be requested to call a meeting of Governors of all cottonproducing States of the United States to be held at Austin at some date in the immediate future to be selected by him, for the purpose of determining what co-ordinated action, if any, should be taken by said cotton-producing States to meet the situation; and be it further

That representatives of Resolved, the Federal Farm Board, of the Cotton Textile Institute, Commissioners and Secretaries of Agriculture, and any other agencies or departments of government deemed desirable by the Governor be invited to attend said meeting in an advisory capacity.

RELATIVE TO AGRICULTURE AND LIVE STOCK COM-MODITIES.

Mr. Wiggs (by unanimous consent) offered the following resolution:

H. C. R. No. 5, Concerning the cost of the transportation of agricultural

products.

Whereas, Agriculture and livestock raising are the basic industries in the State of Texas and have brought to the producers and workers in those industries a continuing series of losses during the past decade, due partly to other causes and partly to a combination of ever increasing freight tariff combined with great distances from ultimate market of the products of such industries, the costs of transportation of said products under said freight tariff schedules in many instances exceeding the market value of the agricultural, or livestock com-

modity at destination; and

Whereas, The agricultural and livestock industries of Texas and the Southwest cannot fully recover from the distressed condition in which they now are, in the absence of more favorable freight rates and tariffs for the commodities of such industries, and particularly is the condition at this time such as that a further increase in the freight tariff schedules on the products of the farms and ranches of Texas and the Southwest would be disastrous, and would in effect absolutely deprive the farmers and stock raisers of Texas and the Southwest of their market for their products; and

Whereas, During the past decade freight tariff schedules of the railroads of the nation and of Texas and the Southwest have been constantly appreciated or increased until at this time they are generally higher than ever before, and the market values of agricultural and livestock products, as well as every other commodity of trade in this country, have gradually depreciated or decreased until at this time they are at the lowest peak average in two decades, there being no response of freight rates and tariff schedules to the distressed market values of the commodity transported under said rates and schedules with the attendant result that such rates and schedules now are disproportionately high and are basicly and economically excessive, and there being considered by the Interstate Commerce Commission of the United | No. 17.

States at this time a joint application of the principal railroad transportation systems of the United States, including those operating in Texas, for an increase in the rates permitted to be charged by them for commodities transported, which 15 per cent rate increase is not only not justified under present conditions, but would prove to be disastrous to the agricultural and livestock interests of this State: therefore, be it

Resolved by the House of Representatives of the State of Texas, the Senate concurring, That we do, by these presents, petition as the duly elected representatives of the people of Texas and for them petition the Interstate Commerce Commission not to allow the 15 per cent general increase in freight rates and schedules as applied for by the common carriers of the country, and that we do respectfully urge said, the Interstate Commerce Commission, seriously to study conditions with the view of bringing about substantial reductions in the cost of transportation of agricultural and livestock commodities and products, and resolve further that the Secretary of the Senate and the Chief Clerk of the House be, and they are hereby instructed and directed, each of them, to send a certified copy hereof to each of the members of the Interstate Commerce Commission.

Signed-Wiggs, Veatch, Stephens, Metcalfe, Donnell.

The resolution was read second time, and was adopted.

IN COMMITTEE OF THE WHOLE HOUSE.

(Mr. Minor in the chair.)

On motion of Mr. Hardy, the House, at 11:35 o'clock a. m., resolved itself into a Committee of the Whole House for the purpose of further investigating oil conservation matters.

On motion of Mr. Hardy, the Committee of the Whole House, at 5:30 o'clock p. m., agreed to stand at ease until 9 o'clock a. m. tomorrow.
